Re: City of Lindsay Water Well Project

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the City of Lindsay Water Well Project in Fiscal Year 2027.

The entity to receive funding for this project is the City of Lindsay, located at 251 E Honolulu Ave, Lindsay, CA.

The funding will be used to install a crucial new well in Lindsay, California. The City of Lindsay's water system has lost a number of its wells due to contamination from high nitrate levels and perchlorates. Furthermore, there is concern over the system's TCP 123 levels and how the remaining wells can be impacted by drought conditions. The new well would also catalyze economic development by ensuring adequate and safe water supply, as well as providing sufficient water pipeline pressure for fire suppression. This is an appropriate use of taxpayer funds because it ensures access to clean drinking water and promotes long-term well-being for an underserved community.

The project has a federal nexus because the funding provided is for purposes authorized by Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in blue ink, appearing to read "David G. Valadao".
