The Honorable Rosa DeLauro  
Ranking Member  
House Appropriations Committee  
1036 Longworth House Office Building  
Washington, DC 20515

**Re: Community Project Funding Request for the Corcoran Stormwater Enhancements Project.**

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Corcoran Stormwater Enhancements Project in Fiscal Year 2025.

The entity to receive funding for this project is the City of Corcoran, located at 832 Whitley Avenue, Corcoran, CA, 93212.

The funding will go towards the construction of innovative stormwater management techniques such as green infrastructure, permeable pavements, and vegetated swales for the purpose of improving stormwater draining systems for fifty newly incorporated residential units within the City of Corcoran. The project is an appropriate use of taxpayer funds because it plays a pivotal role in achieving compliance with federal water quality standards, demonstrating a clear commitment to environmental stewardship and public health protection. The investment in sustainable stormwater management initiatives directly aligns with the objectives of reducing and managing runoff while significantly enhancing water quality.

The project has a federal nexus because the funding provided is for purposes authorized by Title VI of the Clean Water Act, 33 U.S.C 1381 et seq.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Congressman David G. Valadao  
Member of Congress
